IMPORA

IMPORA

A rapidly expanding distributor located in Belgrade, Serbia with self-managed warehouses and storage facilities, multiple logistics partners for Western and Eastern Europe, and a wide range of products spanning from kitchen equipment for the common household, to professional end-to-end full range of HORECA equipment and hardware.

We provide outstanding service to our customers, and we are on a mission to become a one-stop shop for retailers, distributors, hotels, restaurants and cafe’s, and elevate their operations to a higher level.

Endeavour®

With Endeavour we have given ourselves the task. To constantly raise the bar for what is technically possible, in relation not only to the materials, sustainability and form but also with regards to unique design. Endeavour was established in 2008 and has deep roots in Scandinavian design tradition.

KNIVES WITH A SAMURAI SPIRIT

Manufactured by hand and constructed with the Japanese damask technique, each Endeavour knife is com-prised of 67 layers of steel. The process of forging multiple layers of steel provides supreme strength and sharpness and creates the beautiful wood-grain patterning on the blade.The carefully constructed blade is completed with a handle of the remarkably strong, dark FSC-certified pakka wood.

Said to originate from Damascus, the Japanese damask technique was perfected by Japanese forging masters during the time of the Samurai, and gave the swordsmen of Seki a legendary reputation for their Damascus swords. The carefully constructed blade is completed with a handle of the remarkably strong, dark FSC-certified pakka wood.

BIG CHOPPER

A classic chef's knife, the Big Chopper provides a big blade for big tasks, like chopping large amounts of vegetables into small pieces. Big Chopper is an enduring chefs knife — a "must have" for any chef or food lover.

Damascus steel 59-60 HRC	Pakka wood	24 cm	4004

BREAD

Bread is made to cut through all types of bread and slightly firmer foods as easy as possible. The reason for this is that we have made a narrow blade of sharp Damascus steel and the knife is equipped with serrations that give the knife good contact with the bread.

Damascus steel 59-60 HRC	Pakka wood	22 cm	4015

FRUIT

A classic chef's knife, the Big Chopper provides a big blade for big tasks, like chopping large amounts of vegetables into small pieces. Big Chopper is an enduring chefs knife — a "must have" for any chef or food lover.

Damascus steel 59-60 HRC	Pakka wood	15 cm	4007

HERB

Small and highly functional, the Endeavour herb knife was designed to chop in even in the tightest spots — allowing you to pick and slice herbs. A great knife to have at hand in the kitchen.

Damascus steel 59-60 HRC	Pakka wood	8.5 cm	4008

MEAT

The slim blade of the knife gives the possibility of cutting meat from the bone or if raw or cooked meat needs to be cut into thin strips. It is important to keep the knife sharp; so remember to use a ceramic sharpener every time you use the small chef's knife.

Damascus steel 59-60 HRC	Pakka wood	20 cm	4006

SANTOKU

Santoku is a classic Japanese knife. The blade is narrow, sharp and high – this makes the knife the perfect tool when cutting vegetables finely. The high blade helps to protect the fingers from the sharp cutting edge – even when speed is of the essence.

Damascus steel 59-60 HRC	Pakka wood	17.5 cm	4016

BIG FISH

This knife is specially designed for fish. The slim, thin blade and simple handle makes this knife the perfect tool to cut slices that are millimetre thin.

Stainless steel	Pakka wood	31 cm	4041

LITTLE FISH

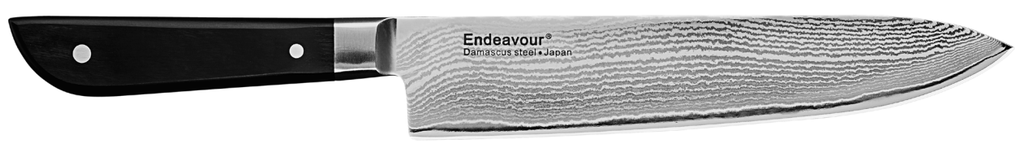

This knife is specially designed for filleting fish and cutting away the tendons and fat along the legs of meat and poultry. The flexible blade of MoV steel is extremely suitable to do just that. All in all, a perfect tool for filleting and boning.

Stainless steel	Pakka wood	17.5 cm	4017

GREEN CHOPPER

Green Chopper is a designed to handle both small and big tasks. The tight and functional design makes it a safe choice for many tasks in the kitchen. Use it for large and small pieces of meat and when chopping delicious vegetables. Green Chopper is a beautiful and robust knife that will delight anyone who loves to cook.

Damascus steel 59-60 HRC	Pakka wood	20 cm	4030

C-FORK

The Endeavour carving fork is fully forged for optimal use. It is effective in the kitchen, feels great in your hand, and with its precise design, it makes carving a breeze. Use C Fork to move the meat from the pot to the oven and to turn it while roasting. Classic design – made to be used.

Stainless steel	Pakka wood	31 cm	4019

RESOLUTION

The Endeavour Resolution Knife Series is made for the modern family. A knife that can withstand being used while also showing that yours is a kitchen that values quality. It is easy to keep sharp and the handle is made from technical thermoplastic which is not damaged by repeated cleaning.

At Endeavour, we strive to be innovative and we constantly push at the bounds of what's possible. With our Resolution Knife Series, we want to show the world that good knives belong in the everyday kitchen. The Resolution series is raw, simple and elegant in its design.

Resolution knives are made from German Mov stainless steel. They have a hardness of RC 55-57 and are both highly durable and supremely functional. The handle is made from technical polyoxymethylene (POM) – hard-wearing and long-lasting. It is a supremely easy material to clean and completely dishwasher safe.

R5

The design of this knife is taken from classic Japanese Honesuki knives, developed for slicing, deboning and cutting strips.

German Mov stainless steel	POM	15 cm	5007

R12

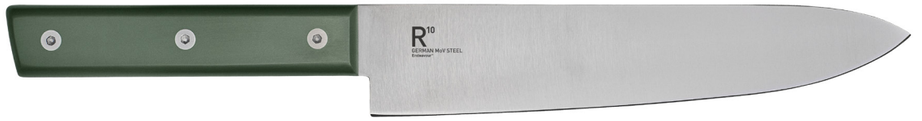

The R12 is the largest chef's knife and indispensable in any kitchen! This large knife will make light work of your heavier chopping and carving jobs in the kitchen.

German Mov stainless steel	POM	24 cm	5006

R10

The R10 chef's knife is indispensable in any kitchen! This large knife will make light work of your heavier chopping and carving jobs in the kitchen. With a broad and solid blade, it cuts effortlessly through all ingredients.

German Mov stainless steel	POM	20 cm	5001

R9

This bread knife has a sharp, serrated blade which can easily and elegantly work its way through bread and other baked goods. The long blade makes it great even for larger loaves.

German Mov stainless steel	POM	22 cm	5002

R8

The knife's design is taken from the classic Santoku knife which is made for cutting and slicing into ribbons. The Santoku's sharp and balanced design makes it simple and effortless to slice fish, meat and vegetables to just the right thickness.
